4. On 27 September, a troop train of 25 B and 16 F with soldiers, tanks and trucks was unloaded at Fuerstenwalde. The train came from Lieberose.⁵ On 26 September, a troop train of 10 CB, 1 B, 34 F was dispatched from Fuerstenwalde to Binz.

1. [Comment] The five troop trains were probably the last trains which belong to the movement of the IX Mts Rifle Corps to the corps' fall maneuver. The trains indicate that the maneuver in the Wiesenburg area did not begin before 29 September 1954.

2. [Comment] The troop trains carried units of the 6th Gds AAA Div back to their home station from firing practices which were held at the "Ustrow" AAA Range on and after 15 September 1954.

3. [Comment] As the loading does not indicate that a troop unit from the USSR arrived at Frankfurt/Oder, the train was probably split up in two sections at the Frankfurt/Oder marshalling yard. 50X1-HUM

4. [Comment] Except for trains which carry recruits directly to the army areas, Frankfurt/Oder will again serve as distributing point of replacements from the USSR in the fall of 1954. It is believed that the recruits are redistributed from Frankfurt/Oder either on regular trains or on special trains such as went toward Eberswalde on 2 October and toward Cottbus on 3 October 1954.

5. [Comment] The observation indicates that components of the 7th Gds Tk Div returned after termination of summer training and the fall maneuver of the division. Similar observations were made at Fuerstenwalde.

6. [Comment] On 21 September 1954, a troop train with elements of the 4th T Arty Brig was dispatched from Prora toward Stralsund. [Comment] The present information indicates that these elements participated in the maneuver of the 10th Gds Tk Div which was held in the area east of Cottbus-Beeskow from 22 September to the evening of 25 September 1954.
